

Key issues yet to be resolved for Air India sale

By Nirbhay Kumar
New Delhi, While raising FDI limit in domestic airlines beyond 49 per cent for foreign carriers would entice airlines like Qatar Airways and Singapore Airlines to participate in the bidding, national carrier status would give right of first refusal to the new owner in seat allocation on international routes. The other issues that could be crucial for the airline's successful disinvestment.

Among the key issues holding Expression of Interest (EOI), first stage of bidding, is whether FDI norms have to be relaxed to allow foreign airlines to take full control of the airline and extending national carrier status after change in ownership.

The government has decided to ease terms of sale for Air India but it is still facing tough choice on almost half a dozen issues that could be crucial for the airline's successful disinvestment.

A core group of secretaries met on Thursday to consider pending issues and resolve them so that the bidding process for Air India could begin by November. This will be the second attempt of the Modi government to sell Air India. In the first attempt last year, it had failed to attract a single buyer forcing it to abandon the sale process. Among many issues, private investors were concerned about government retaining 24 per cent stake in the airline. The government has hence decided this time to almost completely exit Air India.

Indian government asks Twitter for information about 474 accounts

New Delhi, The Indian government has asked Twitter to provide information about 474 accounts and requested to remove or withhold content about 504 accounts on violating the law of the land in the first six months of this year. According to Twitter's latest transparency report, it helped the Indian government in 5 per cent of the information request cases and complied in 6 per cent of cases for account removal requests. In total, 1,268 Twitter accounts were specified for information requests and 2,484 accounts for removal requests from India. The information request "data includes the number of government requests received for account information, as well as the percentage of requests we complied with in whole or in part from India," said Twitter. In case of account removal requests, "the data includes government requests (and other complaints of illegal content from authorized reporters) we've received to remove or withhold content on Twitter from India," the micro-blogging platform mentioned in its biannual report. In the July-December 2018 period, the Indian government had made information requests for 422 Twitter accounts while law enforcement agencies asked the micro-blogging platform to remove 667 accounts for violating the law of the land. Information requests from the US government continued to make up the highest percentage of legal requests for account information. During the reporting period, 29 per cent of all global requests for account information originated within the US (2,120 demands for 4,150 accounts). The social media platform said it received 7,300 demands for user data, up by 6 per cent a year earlier, but that the number of accounts affected are down by 25 per cent. The company turned over some account data in just less than half of all cases. "Compared to the previous reporting period, we received roughly 67 per cent more legal requests to remove content, originating from 49 different countries. Of the requests received, 80 per cent of the volume originated from Japan, Russia, and Turkey. We withheld content in a country 2,457 times, at either an account or Tweet level," informed Twitter. A total of 115,861 accounts were suspended for violations related to the promotion of terrorism, down 30 per cent from the previous reporting period. "Of those suspensions, 87 per cent consisted of accounts we proactively flagged using internal, proprietary removal tools," said Twitter. The company saw a 48 per cent increase in accounts reported for potential violations of its private information policies. "We suspended 119 per cent more accounts than the previous reporting period," it said. "We saw a 22 per cent increase in accounts reported for potential violations of our abuse policies. We took action on 68 per cent more accounts compared to the last reporting period," it added.

MTNL to be BSNL subsidiary, govt okays

New Delhi, State-run MTNL will be a subsidiary of BSNL by transferring the government's shareholding to it following the Union Cabinet's in-principle approval to their merger. Government holds 56.25 per cent in MTNL. Its share price was up after a long time. Its share was up 4.55 per cent at Rs 8.05. MTNL on Friday said that it has received a letter from the government detailing the revival plan of the company as an indication of formal communication to begin the resurrection exercise. In October, the Cabinet had approved merger of loss-making and incipient telecom firms BSNL and MTNL as part of a revival package which includes raising sovereign bonds, monetising assets and voluntary retirement scheme (VRS) for employees. The letter informs that there is in-principle approval for merger of BSNL and MTNL as per relevant rules/guidelines of Gol. Meanwhile, MTNL is to be made subsidiary of BSNL by transferring the Government shareholding of MTNL to BSNL to derive the synergy in network operations and sales till the merger is completed. The Union Cabinet in its meeting held in October considered and approved the proposals of DoT for "Revival of BSNL and MTNL". The Cabinet, had approved a VRS package for the ailing PSUs by Reduction in the employee cost by immediately offering VRS on Gujarat Model to the employees of age 50 years and above. The ex-gratia amount is limited so that total of ex-gratia amount (as per Gujarat Model) and admissible pension for the remaining period of service does not exceed 125 per cent of the salary that the employee would have drawn on the date of voluntary retirement in the remaining period of the service. The payment for ex-gratia on VRS (Rs 17,169 crore) and preponed pensionary liability (Rs 12,768 crore spread over a period of 10 years) is to be supported through budgetary allocation of Government. The ex-gratia on VRS is to be paid in two instalments of 50 per cent each during FY 2019-20 and during Q1 of FY 2020-21. The communication said there will be Administrative allotment of spectrum to BSNL/MTNL for providing 4G services through capital infusion by the Government. The payment of GST on the spectrum cost will be paid through budgetary support. Sovereign Guarantee

Minister with Cabinet Secretary, Secretary (DEA), Secretary (T), Secretary (DIPAM) and Secretary (MoHUA) as members. The Monetisation of tower and fibre assets using an appropriate model including leasing after considering the market conditions with the aim to maximize the returns will be taken up. Chief Managing Director BSNL and CMD MTNL and administrative heads of all wings of Department of Telecom are requested to take note of the above Cabinet approval and take immediate steps for strict and time bound compliance of the same, the letter said

Maruti Suzuki clocks 4.5% hike in sales, signals recovery

New Delhi, Festive demand and sops announced by the government to help the crisis-hit auto sector helped the country's largest carmaker Maruti Suzuki post positive growth in October, the first month in the current fiscal. The carmaker sold a total of 1,44,277 units (inclusive of OEM sales) during October, 2019 in the domestic market recording a 4.5 per cent growth over the same month a year ago. While it witnessed decline in sales of mini cars such as Alto and S-Presso, the compact segment including New WagonR, Celorio, Ignis, Swift, Baleno and Dzire posted a healthy growth of 16 per cent year-on-year. Total sales including exports increased by 4.5 per cent in October to 1,53,435 units. "Maruti Suzuki India Ltd sold a total of 1,53,435 units in October 2019. This includes 1,41,550 units in the domestic market, 2,727 units of domestic OEM sales and 9,158 units of exports," the company said in a press statement. Industry experts had expected the volume decline of automobile companies to be lower in the month of the same month a year ago. While it witnessed decline in sales of mini cars such as Alto and S-Presso, the compact segment including New WagonR, Celorio, Ignis, Swift, Baleno and Dzire posted a healthy growth of 16 per cent year-on-year.
