

Tax filing and planning now made simpler with this new feature on the JioFinance app

Mumbai. To bring unprecedented convenience to taxpayers in India, a feature-packed tax planning and filing module has been introduced on the JioFinance App.

Aimed at making tax planning and income tax return (ITR) filing simpler, smarter, and more affordable for the people of India, the new feature has been developed in partnership with TaxBuddy, an online tax filing and advisory service that offers taxpayers a guided, digital-first experience with built-in compliance and expert support.

The module includes two core features—Tax Planner and Tax Filing.

The Tax Filing feature is designed to address common challenges such as confusion between old and new tax regimes, helping customers save taxes by ensuring deductions under sections like 80C and 80D are not missed, and eliminating over-reliance on costly intermediaries.

The Tax Planner helps individuals project and reduce their future tax liabilities by offering personalised deduction mapping, Housing Rent Allowance evaluation, and regime comparisons. The Tax Filing feature allows users to either file returns themselves, or opt for expert-assisted filing, with plans

starting as low as Rs.24 for self-service options, and Rs.999 for assisted options. Hitesh Sethia, Managing Director and CEO, Jio Financial Services Limited said, "With the deadline for filing taxes approaching, our goal is to remove the complexity that a lot of people associate with tax filing. It is equally important to empower customers with effective tax planning services, allowing them to optimise and maintain visibility over their tax liability through the financial year. The integration of this service with the JioFinance App will enable a seamless experience for tax transactions, backed by expert.
