

Over 150 farmers attend Godrej Agrovet's Dairy Knowledge Series

Palanpur: Godrej Agrovet Limited (Godrej Agrovet) hosted a farmer outreach session under its Dairy Knowledge Series programme in Palanpur yesterday, engaging over 150 dairy farmers. The session focused on the importance and benefits of scientific farm management practices, including Ration Balancing, Total Mixed Ration (TMR), and Grouping, to improve dairy productivity and farm profitability. The Dairy Knowledge Series is a key initiative by Godrej Agrovet aimed at promoting scientific dairy farming through on-ground engagement with farmers and experts. The session was led by Dr. D.C. Patel, Research Scientist and retired professor from Anand Agricultural University, who emphasized the role of structured feeding and herd management practices in driving better outcomes. He noted that adopting these practices enables farmers to enhance milk productivity, improve fertility, and gradually expand herd strength in a sustainable manner. Commenting on the initiative, Capt. (Dr.) A.Y. Rajendra, CEO - Animal Nutrition Business, Godrej Agrovet, said, "With the El Niño forecast this year, Indian dairy farmers may face challenges related to feed availability and animal stress. This makes scientific practices such as balanced nutrition, efficient feed management, and structured farm planning even more critical. Through the Dairy Knowledge Series, we aim to equip farmers with the knowledge and tools needed to build resilience and sustain productivity under such conditions." Adding further, Dr. Patel said, "Practices like Ration Balancing, TMR, and Grouping help farmers optimize nutrition and manage herds more effectively. When implemented consistently, they result in healthier animals, improved reproductive performance, and higher milk yields—directly contributing to herd growth and farm profitability." Building on strong participation, Godrej Agrovet plans to expand the Dairy Knowledge Series across multiple districts in Gujarat and other states in the coming weeks, reaching a wider base of farmers and further.

Vi expands 5G footprint in Gujarat; launches services in 16 cities

Ahmedabad, Following its 5G launch in Ahmedabad, Rajkot, Surat and Vadodara last year, leading telecom operator Vi is now accelerating its expansion in 16 additional cities of Gujarat, taking the total count to 20 cities. Strengthening its 5G footprint in the state, the telco announced the launch of its 5G services in Bhavnagar, Jamnagar, Gandhinagar, Mehsana, Morbi, Surendranagar, Bhuj, Gandhidham, Nadiad, Anand, Bharuch, Ankleshwar, Navsari, Vapi, Daman & Silvassa. To expand its 5G services, Vi has been prioritising key markets, including industrial corridors, high data consumption centres and emerging urban clusters. With these launches, Vi is aiming to cover a mix of key growth markets including Jamnagar, a major industrial hub; Vapi, Bharuch, Ankleshwar, Surendranagar & Nadiad, key industrial centres; Bhuj and Gandhidham - important commercial and port-linked hubs; Anand, an important commercial and educational centre; Daman and Silvassa, key manufacturing and tourism-driven regions as well as key administrative, industrial, and commercial hubs - Bhavnagar, Gandhinagar, Morbi, Navsari, and Mehsana witnessing significant data consumption. Commenting on the expansion, Naveen Singhvi, Business Head - Gujarat, Vodafone Idea, said, "We are accelerating the expansion of Vi's 5G network across Gujarat, as we strengthen our footprint across key markets in the state. Building on our presence in cities like Ahmedabad, Rajkot, Surat and Vadodara, we have now expanded across 16 more cities."

End of road for elite Delhi Gymkhana Club: Govt to reclaim premises for security purposes on June 5

New Delhi, May 23 (IANS) The elite Delhi Gymkhana Club, the imperial-era haunt of the high-heeled and the influential, located in the heart of Lutyens Delhi, is set to be reclaimed by the Union government for "public security purposes", said an official document made available on Saturday. A notice issued to the Club management for eviction said that "it has been determined that the said premises, located in a highly sensitive and strategic area of Delhi, is critically required for the strengthening and securing of Defence infrastructure and other vital public security purposes". The notice signed by Deputy Land and Development Officer Suchit Goyal was issued to the Club on May 22, informing

its General Committee/Secretary that the present 27.3-acre premises located at 2, Safdarjung Road - close to the official Prime Minister's Residence on 7, Lok Kalyan Marg - shall be taken over by the government on June 5. The Union Ministry of Housing and Urban Affairs said in its notice - which carried the subject line "Re-entry and resumption of premises" - that the Club land is being reclaimed as the land is essential to fulfil "urgent institutional needs, governance infrastructure, and public-interest projects, integrated with the resumption of adjoining government lands". The notice addressed to the Club secretary said, "You are directed to hand over peaceful possession of the premises to the representatives of this office on the aforesaid date. In the event of non-compliance, possession shall be taken in accordance with law." The notice referred to Clause 4 of the lease deed, noting that the lessor has the authority to re-enter the premises if the land is required for a public purpose. Exercising those powers, the President of India, acting through the L&DO, has determined the lease and ordered immediate re-entry of the property. The notice said that the entire land parcel, along with all buildings, structures, lawns and fittings standing on it, shall vest absolutely with the President through the Land & Development Office.

representatives of this office on the aforesaid date. In the event of non-compliance, possession shall be taken in accordance with law." The notice referred to Clause 4 of the lease deed, noting that the lessor has the authority to re-enter the premises if the land is required for a public purpose. Exercising those powers, the President of India, acting through the L&DO, has determined the lease and ordered immediate re-entry of the property. The notice said that the entire land parcel, along with all buildings, structures, lawns and fittings standing on it, shall vest absolutely with the President through the Land & Development Office.

USTR says no immediate chip tariffs coming: Report

Washington, May 23 (IANS) US Trade Representative Jamieens Greer said that there were no immediate semiconductor tariffs coming, according to a report, though he underscored the importance of protecting America's chip sector. Greer made the remarks at Micron Technology's memory chip plant expansion project outside Washington. Reuters reported, apparently referring to sectoral duties on chip imports that might come after national security investigations under Section 232 of the Trade Expansion Act of 1962. "So, having tariffs on semiconductors is really important. What's even more important than having protection for facilities like this, is making sure we do it on the right timing and in the right amount," Greer was quoted by Reuters as saying, reports Yonhap news agency. In August, Trump threatened to impose a tariff of about 100 percent on semiconductors, as South

Korean tech firms Samsung Electronics Co. and SK hynix Inc., have been carefully watching his tariff policy developments. In last year's joint fact sheet on trade and security agreements between Seoul and Washington, the U.S. agreed to offer semiconductor tariff rates that are "no less favourable" than terms that may be offered to a partner with chip trade volumes as large as South Korea's. Earlier this year, US President Donald Trump's administration said it will seek "separate" semiconductor tariff agreements for "separate countries, after the United States and Taiwan reached a deal on the chip levies." "Separate agreements for separate countries," a U.S. official said, responding to a question from Yonhap News Agency regarding whether the deal with Taiwan would set a standard for chip tariffs or the U.S. would conduct separate negotiations with other countries for the sectoral tariffs.

Nifty, Sensex post notable gains this week over easing crude prices, US-Iran talks

Mumbai, May 23 (IANS) Indian equity benchmarks posted notable gains during the week as sentiments improved over easing crude oil prices and reports of indirect US-Iran talks. Nifty gained 0.32 per cent during the week and added 0.27 per cent on the last trading day to reach 23,719. At close, Sensex was up 231 points or 0.31 per cent at 75,415. It advanced 0.24 per cent during the week. "Despite the rebound, investors largely remained cautious, with limited conviction at higher levels continuing to cap upside momentum," an analyst said. The IT sector stood out as a clear outperformer, benefiting from attractive valuations following the recent correction. Realty, cement, and private banks also held up while FMCG and consumer durables underperformed as concerns of WPI

weighed on margins. Midcap indices outperformed benchmark indices, as Nifty Midcap100 added 1.36 per cent, while Nifty Smallcap100 gained 0.41 per cent during the week. The rupee found much-needed support as crude prices exhibited a modest pullback over persistent efforts to ease Middle East tensions. However, fears of tightening monetary policy amidst expectations of higher input inflation provided an upward push for domestic bond yields, analysts said. The US 30-year Treasury yield climbed to its highest level since 2007 during the week, reflecting growing concerns around sticky inflation, elevated energy prices and rising macroeconomic uncertainty. It reinforced concerns that higher-for-longer interest rates could continue to pressure global liquidity conditions and risk assets.

Global oil prices climb as Iran indicates scepticism of agreement with US

New Delhi, May 23 (IANS) Global oil prices climbed on the last day of trading week after Iran cast doubt on market hopes for a near-term agreement with the United States. Brent crude rose 0.94 per cent to \$103.5 per barrel, while US benchmark WTI gained 0.26 per cent to \$96.60 a barrel, reversing part of Thursday's sell-off losses that had pushed both benchmarks to their lowest in nearly two weeks. Iran's Foreign Ministry spokesperson said Tehran could not say an agreement with Washington was close, according to state-linked Tasnim news agency. US Secretary of State Marco Rubio said there were "some good signs", while stressing that any Iranian attempt to restrict movement through the Strait of Hormuz would remain a red line.

SEBI probes 7-member family for Rs 20 crore gains from social-media stock manipulation

Mumbai, May 23 (IANS) The Securities and Exchange Board of India (SEBI) has found seven individuals from a single family allegedly using social media platforms to influence retail investors and make illegal profit by taking buy positions ahead of public stock recommendations. An interim enforcement order named seven family members, using

channels such as Telegram, WhatsApp and X to circulate tips for stock market manipulation. They took positions in scrips listed in Small and Medium-sized Enterprises (SME) platform before the calls were widely shared and have collectively made prima facie wrongful gains of Rs 20.25 crores, the market regulator said. Alleged individuals "had prima facie engaged in fraud, manipulation and unfair trade practices."

FII remain net seller this week, domestic investors provide cushion

Mumbai, May 23 (IANS) Foreign institutional investors (FIIs) remained net sellers this week, offloading Rs 7,570 crore based on provisional exchange data as domestic institutional investors (DIIs) were net buyers, purchasing Rs 16,950 crore, providing enough cushion. In the month of May, FIIs have sold a cumulative Rs 32,230 crore, while DIIs have bought Rs 56,870 crore, based on provisional exchange data. FIIs were net buyer on Monday's session with inflow of Rs 2,810 crore. "However, they turned

net seller in the remaining four sessions of the week with outflow of Rs 10,380 crore. DIIs remained net buyer in all the five-trading session during last week with net inflow of Rs 16,950 crore," said Pabitra Mukherjee, Associate Vice President-Research, Bajaj Broking. Benchmark indices traded choppy with high volatility swinging between gains and losses as investors navigated heightened market uncertainty and mixed cues across sectors. Nifty during last week traded in the broad range of 23,300-23,850, with

the index testing the upper and lower band on multiple occasion and finally close the week at 23,719 levels, up by 0.3 per cent. According to analysts, the currency backdrop continues to remain a structural concern. Despite resilience in global equities, the Indian rupee continues to trade near weak levels against the US dollar. Persistent currency weakness not only heightens imported inflation risks but also keeps foreign institutional investors cautious towards emerging markets such as India.
